

EDUCATION AND CAREER GUIDANCE

I actively discover who I am.

I will continually develop my interests and abilities through my CCA, hobbies and subjects I am good at. I will ask family members, teachers and friends for feedback about my strengths.

I know that there are many education and career options worth exploring.

I will take responsibility to explore the different options. I appreciate every job and will give my best in the one I choose.

I make decisions based on what I know about myself, and future opportunities available.

I take steps to fulfil my goals.

I will keep learning and be adaptable.

I seize opportunities to learn and enrich myself, so that I can be better at what I do.
